This report has been written to introduce you to the concepts of astrology and how to get started with your natal chart. Astrology is a complex and meaningful science which takes years to study and apply successfully; however, we would like to whet your appetite with this report, and encourage you to deepen your understanding through other means.

Astrology is a study of the connection between planets and life on earth. It is based on a concept that energy patterns form between other planets and earth; and that these energies affect our lives as individuals and communities.

An astrological chart, also known as a horoscope, natal chart, or birth chart, records the relationship between the planets and the Signs of the Zodiac. Charts can be calculated for the birth of a person, a community, an event or anything that seems momentous. The horoscope is as individual and unique as a fingerprint.

When using these interpretations, please bear in mind that, inevitably, every chart will contain some contradictory influences, and as a result certain interpretations of different items in the same chart may seem difficult to reconcile. However, this may still be an accurate reflection of your chart, as it is likely that you do experience conflicting desires, events and circumstances in your life. Usually it is the responsibility of an astrologer to synthesise these apparent contradictions in order to present a cohesive and meaningful interpretation of the dilemmas of the chart.

Please also be aware of the fact that each person has positive and negative influences in the chart, and therefore in their lives. The challenge is to accept and overcome the negative influences, so that we can successfully focus on the positive traits. This report outlines both influences, and therefore parts may be difficult to accept. Any advice given is meant to be an aid to a person taking responsibility for their own lives. The ultimate decision rests with each
individual. The author and publisher accept no liability for any adverse effects of this report.
If you would hit the mark, you must aim a little above it;
Every arrow that flies feels the attraction of earth.
Longfellow, Elegiac Verse 1880.

The Sun

Just as the Sun is the centre of the earth's Solar System, so does the Sun play a vital role in your life on earth. Your life goals are linked to your Sun - its Zodiac Sign and its position in your chart. Contrary to popular belief, the Sun isn't the only planet to be considered in a person's chart, but it is an important component. The Sun gives you an indication of how you can shine in your life. You will feel truly alive when you're living the traits indicated by your Sun. Therefore it's likely that you will spend much of your life on a journey to self discovery, aiming to incorporate these traits into your life. Understanding the energy of your Sun is a good starting point to understanding yourself and your purpose in life.

The Sun is in the 2nd House

Your Sun is in the 2nd House of your birth chart meaning that you're the sort of person who spends much of your life exploring your personal values. It's important for you to have a set of values by which you can judge your own and others' lives, as long as you don't become too critical when either you or others fail to live up to your expectations. If you're too critical then you will find that your self-esteem suffers, as you worry about your own failures or others become fed up with your harsh attitude. In fact your self-esteem may also be tied up with your ability to handle your finances. Money, and the pleasures that it can afford, are attractive to you. You may expend much of your time and energy earning money in order to build yourself up, or to buy possessions that help you feel secure. The challenge is to value yourself no
matter what are your external circumstances. However you're likely to benefit financially through generous benefactors, possibly your father or a member of your father's side of the family. You could also benefit financially through a career as a government official.

**The Sun is in Virgo**

Your Sun is in the Zodiac Sign of Virgo indicating that you're an analytical person with a keen mind, and will enjoy paying attention to detail. In fact you enjoy anything which requires close analysis ranging from pastimes such as mind-bending puzzles to more demanding work such as cataloguing data and scientific research. You excel in areas that demand concentration, organisation and rational thought. You love order, particularly in your daily life. This can include anything from an organised household to a properly-planned social calendar. Your loved ones will often rely on your organisational abilities, and these qualities may extend into your working life where others will come to appreciate your executive abilities. Hygiene will also be of importance to you, as you've an excellent understanding of the need to take care of your body, and the importance of a healthy mind and a healthy body. "Cleanliness is next to godliness" may be a motto which rings a bell. You need to take care not to become too fussy, otherwise you may find that you become intolerant and critical of yourself and those around you. You would do well to remind yourself of the bigger picture every now and then so that you don't become too entrenched in insignificant details.

**The Sun is Conjunct Mars**

The Sun and the planet Mars come into contact in your chart meaning that you're hard working and energetic, able to tackle most of life's challenges with confidence and a positive attitude. A natural-born leader, you prefer taking the initiative, rather than sitting back and waiting for things to happen. You're courageous and like to take a few risks in life, particularly ones that satisfy your sense of adventure and provide an outlet for your boundless energy. Self-motivation comes easily and you find it difficult to accept the motto that "all good things come to those who wait". You prefer to tackle a project or problem head on rather than wait around for a solution. While confidence and initiative are positive traits, you do need to exercise some patience and caution. Knowing when to take risks and when to wait are both vital to a successful outcome in any project. As long as you find positive outlets for your enterprising nature, and don't act too impulsively you're likely to stride forth and succeed in achieving your life goals.

**The Sun is Square Neptune**

Your lack of confidence is likely to stand in your way in achieving your life goals. This is because the Sun is making a difficult aspect to the planet Neptune in your birth chart. You're a sympathetic and kind person, but you're apt to be overwhelmed by the injustices of the world. As a result you lose sight of your goals and become confused about your direction. It's also possible that you allow other people to tell you how to live your life. You're so eager to
please others, that you find it difficult to assert your own rights and beliefs. At times like these you may benefit from moments of quiet reflection, or meditation, which enable you to develop an ability to rely on your own inner resources. It's possible that your confusion stems from childhood experience with your father, or a father figure. Perhaps this person was weak or ill and unable to support your development, or perhaps the death or absence of a father strongly influenced your life. Either way the result is that you've difficulty finding a firm footing on which to base your life as an adult. Your challenge is to learn to trust your own intuition, and to use your artistic and sensitive nature for the benefit of other people without losing yourself.

**Jupiter**

The planet Jupiter also tells you about your goals in life, in particular the areas in which you are likely to succeed. Jupiter is the planet of expansion, abundance and wisdom. Ancient astrologers believed that the planet Jupiter had a greatly beneficial effect on a person's life.

**Jupiter is in the 6th House**

Jupiter is also in the 6th House of your chart signifying that you certainly know how to liven up a dull day, even if it does mean re-scheduling a few commitments and shaking up other people's routines. You like to live each day to the full, ignoring the rigours of "should" and "have to" in favour of comfort and fun. You're full of boundless energy and tend to complete the mundane jobs in a flurry of activity so that the rest of the day can be enjoyed in other ways. Fortunately you're usually healthy and your body is quite resilient, which means you've lots of energy for filling your day with fun-filled projects. You can achieve quite a lot in one day. Work and fun often mean the same thing to you, with you spending much of your time on the job. Mostly this isn't a problem as you enjoy your work and can make a good income, but you need to be careful not to overdo things. It's also possible that your work is linked to your own personal and spiritual beliefs, and these may be associated with caring for other people. You enjoy employment that gives you plenty of freedom to set your own goals, a job that doesn't tie you to a desk but involves some travel.

**Jupiter is in Sagittarius**

You've the planet Jupiter in the Zodiac Sign of Sagittarius in your birth chart indicating that you've a love of life which is infectious and a blessing to all who come in contact with you. You're an open and generous person, fond of seeing the lighter side of life. Your sense of humour stands you in good stead throughout your life. Other people admire your positive outlook and enjoy spending time in your company, as well as offering you favours. You love adventure of all kinds whether it be travelling around your own country or to distant shores. You particularly enjoy exploring different cultures and religions, either through academic study or travelling abroad. Your thirst for knowledge sometimes seems insatiable. Although you're a perennial student, you also enjoy sharing your knowledge with other people through writing or teaching. In
fact you can be an inspirational teacher. You may also be fond of sport, particularly adventurous sports. The planet Jupiter is considered to be particularly favoured in the sign of Sagittarius and therefore you're likely to have success in whatever avenue you undertake.

Jupiter is Square Pluto

The planets Jupiter and Pluto are making a difficult aspect in your birth chart indicating that you've some difficulty achieving your life goals, but you will get to where you want in the end. The problem is that you reject the usual paths to success, believing that you've a better way of doing things. Your attempts to change the rules, or to try to make others agree with your insights, are sincere, but intrusive. As a result you often land yourself in troublesome situations, which can lead to disillusionment and distract you from your purpose. This can dent your confidence. You range from over confidence to completely lacking in confidence. The truth lies somewhere in between. Society has rules to run itself efficiently, and these can be to your benefit rather than detriment. Once you accept your own and society's limitations then you can achieve your objectives.
Perverse and foolish oft I strayed,
But yet in love he sought me,
And on his shoulder gently laid,
And home, rejoicing, brought me.

Hymn, The King of love my Shepherd is 1868.

The Moon

Astrologers from different schools of thought allocate varying meanings to the Moon in a birth chart. Ancient astrologers say that the Moon changes its nature according to its phases, and merely passes on impressions from other planets rather than directly influencing a person's life. However, modern astrologers tell us that the Moon depicts a person's roots, our home and family. They say the Moon also shows our habitual nature or subconscious patterns of behaviour which stand in the way of achieving our life goals. While the Moon can show us our strengths, it can also depict our weaknesses which need to be overcome in order to be successful in life.

The Moon is in the 10th House

The Moon is placed in the 10th House of your birth chart suggesting that you're ambitious and enjoy your job, spending much time in the workplace, working odd hours to make sure that you get ahead in your career. You've a need to be publicly recognised for your achievements, and this need may or may not be satisfied during your lifetime. It's likely that you succeed in your chosen profession at some stage during your life, but whether or not this success is enduring depends on other sections of your birth chart. It's true to say that your professional life undergoes several changes during the course of your life, with rises to fame and popularity, and possible falls from grace. You're also likely to move into a completely different field of work at least
You may be prominent in your field, popular with the public. The more that you express your emotional truth in public the more vulnerable you are likely to feel and yet, this will also ultimately earn you other people’s heartfelt respect. Your mother is likely to have played a prominent role in your life. You learn much either by her example, or as a result of her mistakes. You seek to nurture others through your career, parenthood, or a public voluntary role. If your Moon is in an Air Sign (Gemini, Libra or Aquarius) then ideas, communication, writing and teaching may appeal. If your Moon is in a Fire sign (Aries, Leo, or Sagittarius) then independence and enthusiasm is a key feature in your career choice. Water Moons (such as Cancer, Scorpio and Pisces) are likely to struggle somewhat early in life with finding a career path. Nurturing others, being of service or finding an artistic profession all ease this process. If your Moon is in an Earth Sign (such as Taurus, Virgo or Capricorn) then you are likely to build solid career paths based on a need for emotional security. In ancient times the Moon was considered to be in a strong position when placed in the angular 10th House of a chart, meaning that you’re in a strong position to achieve your ambitions.

**The Moon is in Taurus**

With the Moon in the sign of Taurus, the creature comforts of life appeal to you, offering a safe haven in a busy world. At times you may have difficulty rousing yourself to face new challenges, particularly if you’re feeling insecure in your life. However, it’s only that routine and familiar surroundings feel so safe in an unpredictable world. Fortunately you also enjoy establishing order in your life, and this can rouse you from any temptation to overindulge. In fact you can often be found quietly sorting through files and drawers, weeding the garden bed or some such useful activity. Your down-to-earth nature usually asserts itself when needed. At other times you may be keen to enjoy the more sensual side of life. Indulging the five senses can be comforting. The touch of human skin, the taste of find food and drink, the finer scents in your daily work, the sight of a beautiful person or scene and the sound of inspirational music all provide you with a sense of wellbeing. You may even have a talent in one or more of these areas.

You also enjoy keeping up with traditions - reliable rituals that have been passed down through the generations giving you a sense of life being reliable and predictable. You also provide this comforting steadfast quality for those around you. The Moon is also linked to the planet Venus indicating that you also enjoy sensuality and beauty. The touch and feel of silk, the scent of fragrant roses and the rich colours of a tapestry are just some of the wonders that appeal to you. Astrologically speaking the Moon is exalted when in Taurus, emphasising that wonderful ability of yours to manifest that things that you want in your life, as well as for your friends and family.

**Uranus is Opposite The Midheaven**

This placement of the erratic planet Uranus can work in numerous ways. In some cases it indicates an unsettled early family life, which continues to affect
your adult life choices. Perhaps your family was itinerant. You may, or may not, enjoy the lack of stability in your home, depending on other aspects of your nature. This placement could also indicate that you are the odd one out in your family, or that you take after your father’s side of the family, which is slightly eccentric or highly intellectual. You, or your father, may have broken away from the family bonds, determined to express your authentic self. One way or another your home life is likely to be busy, with an unconventional household. You enjoy having the freedom to express your individual nature in your home, whether that means decorating your home in just the way that you like, or neglecting the household completely in favour of other stimulating pursuits. Your pursuit of freedom may also affect your choice of career and life partner. You may need a job, or a spouse, that gives you plenty of room to spread your wings.
EDUCATION AND COMMUNICATION

There is no such whetstone, to sharpen a good wit
and encourage a will to learning, as is praise.
Roger Ascham, The Schoolmaster 1570.

Mercury
Our academic schooling and learning through life experience are linked to the
planet Mercury. This planet stands for the intellect, common sense, cold
reason, commerce and business. It tells us about our communication and
learning habits and our modes of thinking.

Mercury is in the 1st House
The planet Mercury in the 1st House of your chart signifies that, possessing a
lively and enquiring mind, you are constantly seeking information and data
about the world around you. You are curious, wanting to discover new things
about the world, and this can take you to some very interesting places, both in
your local neighbourhood and further abroad. "Curiosity killed the cat" is the
old saying. However, you would be quick to add the often forgotten ending to
the saying, "satisfaction brought him back"! You've a keen intellect and don't
like to be bored, otherwise you can feel quite restless. You are fond of books,
whether they be considered true literature or just a fun-filled novel. Resource
books and cross-word puzzles also hold a strong appeal. You also enjoy
studying new subjects, and may have literary talents. While other people may
enjoy a quiet and unchanging routine, you prefer the stimulation of changing
circumstances. You are resourceful and adaptable. These abilities can also
stand you in good stead in the business world, where adaptability and
resourcefulness can equate business acumen.

Mercury is in Leo
The planet Mercury in the Zodiac Sign of Leo indicates that you're enthusiastic in your quest for knowledge, and generous in sharing all that you've learnt even though it's sometimes to a somewhat reluctant audience. Mostly others enjoy listening to your creative story-telling talents, and find themselves enthralled by your lively communication. You may even find yourself on the stage during some time in your life. You do like the sound of our own voice. And why not? You're proud of your learning abilities, and believe in the saying that learning is fun. Your enthusiasm can be contagious. You can be creative in your thought process, and have an appreciation of the arts. You can also enjoy conversing with children. While it's true that you're an enthusiastic communicator, it's also true that your mind often turns to thoughts of your own ambitions. You're confident in your ability to communicate with others, and know that this trait could push you into a leadership role. As long as you keep your tendency to be a know-it-all under check, then you should succeed.

**Mercury is Sextile Saturn**

The planet Mercury is making favourable contact with the planet Saturn in your birth chart indicating that you've good intellectual abilities. Your mind is contemplative and profound, capable of concentration and comprehension. Therefore you're likely to shine in pursuits such as study, writing, publishing, lecturing, teaching, travelling, diplomacy, and business. You may be particularly interested in science, politics or medicine. You're fortunate to have good judgement and reasoning powers, as well as an excellent memory. You may have had difficulty expressing yourself as a child, but as an adult you're able to speak your mind in a logical and methodical manner. The saying "older and wiser" certainly applies in your case. You're a sensible person, able to make careful plans and carry them through to completion. Depending on other aspects in your chart you're more likely to take a traditional path in your education, rather than explore unchartered territory. The steady approach to education and communication suits you. You've the ability to become a voice of authority in your field of expertise, particularly a field which requires business acumen, good communication skills and common sense. In other words, you're capable of achieving whatever you set your mind to.

**Mercury is Square The Moon**

You need to take care in your communications and education because of the unfavourable combination of the Moon and the Planet Mercury. You've a sharp mind and a quick wit, but unfortunately you've a tendency to gossip and be sarcastic rather than put your skills to good use. In some cases this combination can also highlight a tendency to dishonesty and worry. Of course you're worried, because you can only judge other people by your own standards and these may not be very high! Of course much of this depends on other influences in your birth chart. On a positive note you can turn your mind to your studies and to improving your communication skills.
RELATIONSHIPS

Let me not to the marriage of true minds
Admit impediments. Love isn't love
Which alters when it alteration finds.
Shakespeare  Sonnet 116.

Venus

The planet Venus tells about love and relationships. It reveals the type of relationship we value, and what we are seeking from our most intimate relationship, as well as how we like to show our love. It answers questions such as, are we attracted to strong, sensual and intense relationships? Or do we prefer some freedom and independence? This planet also depicts how we like to relate to our environment and other people, not just our primary partner, and how much importance we place on money and resources.

Venus is in the 12th House

When the planet Venus is placed in the 12th House of your birth chart you're likely to enjoy your own company, perhaps even craving the peace and quiet offered by seclusion rather than the hustle and bustle of a hectic social life. Your friends need to respect your need to be alone at times. On occasion you don't mind spending your time with one or two friends, particularly women friends, but "the more the merrier" is definitely not your motto. You're more likely to be an introvert than an extrovert, revelling in a fantasy world or in your secret pastimes. You love mystery and romance, and have more than your share of secrets, perhaps even investigating secret arts. The worlds of magic, alchemy and astrology hold a certain appeal, as do many of the occult arts. Your success in the world may be as a result of your investigation into the secret arts. Success may also come as a result of your work behind the scenes in your profession, or in an institution or charitable organisation. Your
tendency to delight in secrets also includes secret lovers. For this reason you need to be wary of secret enemies, in particular women.

**Venus is in Cancer**

With Venus in the Sign of Cancer your relationship with your family plays a key role in your life, as you like to feel that you belong to a tribe. Whether the relationships run a smooth or rocky course, you're bonded with your family. Your mother in particular may be a key figure. You also like to form close friendships. Social occasions may revolved around family events, and over the years your friends become part of the family, mingling easily with family members at social occasions. You seek a partner who can also become part of your family and help you keep the home fires burning. You enjoy sharing the comforts of your home with your loved one, including forming a family of your own, as you enjoy children. Domesticity is an important avenue of sharing with your partner. You enjoy cooking for your loved ones, and providing for their needs. You may also enjoy tracing the family tree. When it comes to money matters, you like the security that a regular income brings. You also like to invest your money, gaining emotional comfort from the fact that it's a nest egg for the future.

**Venus is Sextile The Moon**

You enjoy comfortable relationships with other people because of the favourable combination of the Moon and Venus in your birth chart. A charming and prudent person, you enjoy the company of other people, and they respond favourably. You're likely to enjoy success in your primary relationship, choosing someone who feels comfortable and companionable. You're also likely to benefit from your relationships with women.
MOTIVATION

Dimidium facti qui coepit habet: sapere aude.
To have begun is half the job: be bold and be sensible.
Horace, Epistles 65-68BC.

Mars

Mars is the planet that tells us about our assertion and drive. It tells us what motivates us and what desires drive us most powerfully. Are we ambitious for professional power, or do we desire a meaningful relationship? Do we pursue our desires aggressively? Or do we sit back, lacking the confidence to achieve our ambitions? These are the types of questions answered by the qualities of the planet Mars in our chart.

Mars is in the 2nd House

With Mars placed in the 2nd House of your birth chart you're motivated by money. In fact money plays a major role in your life, either the lack of money or the accumulation of wealth. You have probably experienced both and realise the extent to which you money can make you feel powerful. As a result at least part of your life is likely to be spent working towards the ambition of monetary riches. Any wealth is accumulated as a result of your own hard work. You can be quite aggressive in pursuit of wealth driving a hard bargain with any potential employer. You also know how to barter with shop attendants for a better price, or where to find the best bargain for your money. You need to be wary of becoming too aggressive in your pursuit of material wealth, alienating others along the way. One of your challenges is to learn to rely own your own personal resources, rather than focussing only on material resources. You have a strong set of personal values, which can help keep you on the right track. There is, however, a danger that you can be too aggressive in your insistence that others adhere to your values.
Mars is in Virgo

The planet Mars in the Sign of Virgo indicates that you're a shrewd person and will pursue your personal desires in a practical and methodical manner. You have a strong drive for perfection, and can often be found organising and re-arranging your environment in order that you live life more efficiently. You're keen to employ schedules and routines to help you run your daily life. It's also true that you find it difficult to cope if your routines are disrupted, and you have little patience for less-organised people. In fact you can be quite critical and judgmental, believing your methods to be the most practical and efficient, superior to other people's efforts. You don't suffer fools gladly and need to be careful to curb the perfectionist side of your nature. In some cases your interest is likely to be sparked by scientific pursuits, in particular medicine, but generally any science or research could be pursued. You prefer to be able to pursue your own interests without interference from other people and can systematically remove anyone who stands in your way. While this may sound harsh, it's true that you possess a vengeful side of your nature if opposed.
CAREER AND AMBITIONS

The road up and the road down are one and the same
Heraclitus, Die Fragmente der Vorsokratiker c540-480BC.

Saturn

The planet Saturn represents responsibility, boundaries and structure; structure that provides a positive framework within which we can build, or structure that limits our development and forces us to reassess our liabilities and assets. This planet is also linked with our ambitions, and how we approach the practical side of life. This planet often represents the professional side of our lives.

Saturn is in the 11th House

The planet Saturn placed in the 11th House of your birth chart suggests that friendships are a serious component of your life, providing you with little amusement but much support and wise counsel. You would rather have a few true loyal friends than enjoy many wayfaring companions. You like to rely on your friends to be committed, but they don't always live up to your expectations. As a result you're likely to suffer some disappointment in your friendships at some stage of your life. It's also possible that most of your friends are linked to your professional life. In other words your business or professional colleagues are also your friends. In some cases you could be deceived through false friends, losing money and reputation. This, of course, depends on other influences in your birth chart. Nevertheless you would be wise to avoid entering into business deals with friends, or lending money to friends until you're sure that the other influences are positive.
**Saturn is in Gemini**

The planet Saturn in the Sign of Gemini signifies that you're a disciplined and logical thinker with the ability to organise details. You're observant, adaptable and resourceful - all qualities which enable you to be promoted to managerial positions. You can also achieve great success in intellectual pursuits where the combination of logic and ingenuity are formidable. In fact you could excel in any position which requires organisational abilities. In some cases you may feel torn between two pursuits, not sure which path to take in life. It's also possible that you could benefit from having two projects on the go at once. You prefer straight talk and can sometimes be accused of lacking tact. This doesn't overly concern you because of your belief that honesty is the best policy in the long term. You need to be careful because you could be deceived by others who are not as honest as you. Although you could suffer some difficulties through family members or financial investments, you're likely to achieve your ambitions, particularly in the intellectual fields.

**Saturn is Trine Uranus**

You're recognised in your career for your ability to plan and organise, making the most of available resources while adopting new and innovative approaches to tasks. This is because of the combination of the planets of Saturn and Uranus, which indicate a mix of initiative and good old-fashioned common sense - a formidable blend. You're independent, resourceful and self-motivated, all of which enable you to achieve success in whatever you turn your mind to. You may discover that you've natural abilities in the fields of science, mathematics, research, business organisation, industry and metaphysics. It's likely that you'll succeed in any career that utilises your gift for blending the old with the new.

**The Midheaven**

The Midheaven is one of the important angles in a birth chart and is also known by astrologers as the MC or Medium Coeli. This angle tells us of our public life, our profession and social status. In other words how we are viewed by the public, how we want to be viewed by the public and what type of profession we are likely to choose. It's also important to note the house position of the ruling planet of your Midheaven for further information about your career as this can greatly influence the interpretation.

**The Midheaven is in Aries**

With a Midheaven in the Sign of Aries and ruled by the planet Mars, you're likely to choose any career which gives you the freedom to follow your own path. You're a leader, rather than a follower, and prefer a profession which provides independence and autonomy. In fact you have difficulty settling into a job which doesn't give you plenty of authority. You don't like to work with someone watching over your shoulder, preferring to go at your own pace. You may even have difficulty working in an office, where routine and schedules are the order of the day. You prefer to be on the road, or to work your own hours.
Assertion, power and initiative are keys to you succeeding in your chosen career. Examples of famous people with the same Midheaven include Hollywood actress Meryl Streep, Prince Charles of England, UK politician Neil Kinnock, and Australian opera singer June Bronhill.

**Chiron is Conjunct The Midheaven**

Do you ever feel like the odd one out in your chosen profession? You are talking but no one else listens? Perhaps you wonder why you are the one who is always overlooked for a promotion? This is because you are different - in a good way. You are a prophet in your own profession, but your skills are not necessarily of an imminently practical nature. Therefore other people don't immediately see the measure of your worth. This can be painful, particularly if events or people trigger subconscious recollections of rejection by your parents. It is possible that your mother, or both parents, did not listen to you or encourage your choices. At school you may have been encourage to study subjects that were not suited to your talents. As a result you felt lost, unable to achieve, when really all you needed was to take a different path. Your initial career choice may not reflect your true purpose. Hence you still feel like a fish out of water. Eventually a light switches on and one of two things can happen. You begin to value your own worth within your current occupation, or you change career paths. Healing, spirituality, and any of the feminine arts may suit you professionally. No matter what your career, you bring much wisdom to your chosen profession. Once you accept an alternative career, or a different attitude then doors open and you receive the recognition that you truly need. Ironically this recognition may not come from other people but from a deep sense of satisfaction that you are on the right path.
CREATIVITY AND ORIGINALITY

Gustav Flaubert, Correspondence 1857-64.

Uranus

The planet Uranus represents originality and unconventionality. This can be both the unusual and brilliant genius or the wilful rebel without a cause. This planet tells us the areas in which we break with convention, become innovative and experiment with new and exciting ways. In some circles of astrology Uranus represents the creative genius which comes directly via our soul or higher self.

Your intuition is strong, so much so that you may have clairvoyant, clairaudient or telepathic abilities, perhaps even a gift for magnetic healing. You may be fascinated by the occult world or pursue your interest in astrology, science or metaphysics through reading, writing or studying. Other people may be drawn to your original mind, or they may be repelled by your eccentricity, because you do have a tendency to suddenly express your ideas without fully realising their impact on other people. When you focus your creative and intelligent mind on one task it's difficult to imagine you failing at your purpose, but the problem is being able to maintain your concentration. At times you're unsettled in your purpose, and your restlessness can prompt sudden changes of residence or
impromptu journeys. The planet Uranus in this house can also indicate an unusual relationship with your siblings, or that your siblings are independent and unconventional.

**Uranus is in Libra**

The planet Uranus was in the Sign of Libra from 1968 - 1975. It's important to note that Uranus spends a long time in each Sign, and therefore the interpretation applies to a generation rather than the individual. For a more individual interpretation you need to look at the house position of Uranus in your chart. Uranus in the Sign of Libra indicates that you belong to a generation which seeks new ways of achieving just human relations. This period indicates the breaking down of the old forms of relationships and the introduction of new ones and the introduction of new concepts about justice. Your creativity soars when you're tackling these issues.

**Uranus is Semisquare Neptune**

The planets Uranus and Neptune are combining in your chart suggesting that you're concerned about spiritual matters and try hard to bring about social change. You've an ideal of how the world could be, and yet have difficulty living up to your own standards. Perhaps you're being too idealistic, or perhaps you lack the discipline needed to fully explore your creative talents. Either way you need to develop a more realistic approach to creative matters. This way you'll be able to enjoy explore your talents, which may lie in writing, healing, social welfare, healing or spiritual fields. You're keen to explore metaphysical matters, perhaps even belonging to a secret society or a group dedicated to global healing, charity or spirituality. Your psychic abilities and intuition are likely to be heightened, and this may help you explore your creativity.

**Neptune**

Neptune is the planet of creativity and spirituality. It represents both the bliss of spiritual attainment and the heights of creativity. This isn't personal spirituality and creativity which comes at the expense of others, but gifts which can benefit humanity. This planet also represents the confusion that can accompany the road to discovering when we are being selfish, as opposed to when we are generously thinking of how our gifts can benefit others.

**Neptune is in the 5th House**

The planet Neptune placed in the 5th House of your chart means that you've a strong artistic nature, with an ability to be creative by using your intuition. However it's possible that you may have to make sacrifices before you can be creative. These sacrifices can be experienced in early childhood or as an adult, or both. For instance, as a child you may long to go out and play with other children, but you suffer from a debilitating illness. As an adult you may
long to be an artist, but first you've to care for an ailing mother. This sense of sacrifice is also likely to be linked with children. Perhaps you can't bear children of your own, or there are delays and frustrations. You've a romantic and seductive side to your nature, which can attract beneficial or deceitful lovers, depending on other aspects in your chart. These aspects will also mean that you may be subject to deceit or benefits from speculative investments.

**Neptune is in Sagittarius**

The planet Neptune was in the Sign of Sagittarius from 1970 - 1984. It's important to note that Neptune takes about 164 years to make a complete cycle, spending about thirteen years in each Sign, and therefore the interpretation applies to a generation rather than the individual. For a more individual interpretation you need to look at the house position of Neptune in your chart. Neptune in the Sign of Sagittarius indicates that you belong to a generation possessing the gift of spiritual vision. You'll be able to help humanity focus on spiritual goals and become more expansive and inclusive of differing races and beliefs.

**Neptune is Sextile Pluto**

The planets Neptune and Pluto both move slowly through the zodiac, and therefore any connection between the two planets affects birth charts for a short period of time. You were born in such a time. This combination in your chart means that you're interested in opportunities to bring about fundamental change to human values. You are aware of injustices in society and, depending on other influences in your chart, may prefer to fight against them rather than sit back and accept the ills of society. Your creative urges may be linked to politics, or expressing your political views through the arts or spiritual or charitable organisations.
The spirit of self-help is the root of all genuine growth in the individual.
Samuel Smiles, Self-Help 1859.

Pluto

The planet Pluto challenges us to transform our lives by clearing out our old habits to make way for the new, more rewarding ways of living. The process isn't necessarily an easy one, as most of us cling tenaciously to the comfort offered by habitual patterns, and are rather scared of new paths. Pluto shows us in which areas of our lives we need to grow, and to a certain extent whether we're likely to find the process of growing painful or joyful.

Pluto is in the 3rd House

The planet Pluto is in the 3rd House of your birth chart indicating that you're a powerful communicator. You may not realise the forceful effect that your words have on other people, or you may be well aware of the effect, making use of your skills through public speaking or writing. It's possible that you take on the role of spokesperson for a neighbourhood group, or for anyone who has trouble speaking up for themselves. You've a probing mind, with an intense need to delve into most subjects. You become impatient with idle chitchat, which you believe merely skates over the surface, wasting valuable time. There are few subjects that are taboo in your life, and you may enjoy psychology, psychiatry and metaphysical studies, because these satisfy your need to probe beyond the superficial. You may have some difficulties communicating with people who prefer to keep their distance, those who feel uncomfortable with the intimate nature of your conversations. Your challenge is to communicate as honestly as possible, while respecting other people's rights to their own private thoughts.
Pluto is in Libra

The planet Pluto was in the Sign of Libra from 1972 - 1984. It's important to note that Pluto takes about 248 years to make a complete cycle, spending 12 - 32 years in each Sign, and therefore the interpretation applies to a generation rather than the individual. For a more individual interpretation you need to look at the house position of Pluto in your chart. Pluto in the Sign of Libra suggests that you belong to a generation concerned with global justice and transforming human relations. Your generation possesses the ability to see the necessity for change in personal and global relations.
A sense of purpose can help us overcome the most onerous difficulties in our lives, by taking the focus away from our failings and problems, and shining the light on our strengths and talents. By concentrating on our purpose we can distract ourselves from our troubles, and maintain the forward momentum of our lives. A sense of purpose can also lead to feelings of happiness and joy. Ancient astrologers believed that a person could either identify with their human body and human life, or could focus on a spiritual life. A rewarding spiritual life can help ease human pain and suffering, and inject joy into every day life. A sense of purpose can assist the process of transferring our identification from our human selves to the spiritual sides of our nature, and one of the greatest gifts of astrology is to help us determine our purpose.

The North Node

The North Node and South Node form an axis in astrology, which is said to represent one's destiny or spiritual quest in life. This axis is also linked with our purpose. The North Node points to a key lesson in our lives. It represents new experiences towards which we must aim during this life. We have already learnt the skills of its opposite point, the South Node, in the past. Now we must grow and stretch ourselves through the North Node.

The North Node is in the 7th House

Your North Node is in the 7th House and your South Node is in the 1st House.
of your birth chart indicating that you are destined to learn as much as you possibly can about relationships. This could be a challenging path, or it could be easy. Either way you benefit greatly through your relationship experiences, both personal and distant associations. You may also experience a sense that many unions formed in your life are pre-ordained. You fare best when you learn to let go of ego-centred actions and become more focused on service to other people. You also benefit from choosing your marriage partner wisely, taking your time to consider the union.

The North Node is in Capricorn

Your nodal axis has the North Node in Capricorn and the South Node in the Sign of Cancer denoting that yours is a quest for maturity. You've a tendency to become over-dependent on other people and cling to them as if you were a child. You burden others with your real or imagined emotional problems wanting them to take a parental role. You will spend much of your life searching for a father-figure unless you can rise to the challenge of becoming responsible for your own life. You need to let go of your personal problems and work towards your own respected place in the world.

The North Node is Trine The Moon

The North Node and the Moon are combining to suggest that you're being urged to come to terms with the emotional side of your nature. You may have difficulty expressing your emotions, particularly in groups of people. This is an area which you need to develop throughout your life, so that you can learn to use your intuition. This will better help you to pursue your purpose in life.

The North Node is Trine Pluto

You're on a quest to use your insights and personal experience to help others. This is because of the association of the North Node and the planet Pluto in your birth chart. You may encounter traumas during your lifetime, which will ultimately help to develop your resourceful nature.

The South Node is Trine Neptune

You've a tendency to daydream and live in a fantasy world, possibly even escaping into the world of drugs and depression. This is because of the association of the South Node and the planet Neptune in your chart. Your quest in this life is to put your creative talents to positive use.

The Ascendant

The Ascendant, or Rising Sign as it's sometimes called, is a key to discovering our purpose. Ancient astrologers believed that the Ascendant depicted our primary motivation as individuals. Some believed that it was one of the links to discovering what makes a person happy. When we're accomplishing our
primary motivation then we're happy. The more modern Esoteric astrologers believe that this sensitive chart point reveals our soul's purpose. When we're carrying out our soul's purpose then we're joyful. They believe that acceptance of our purpose, or fate, can help us achieve success and satisfaction, and that meditation on the qualities of the Ascendant can help us focus on our life's purpose.

**The Ascendant is in Cancer**

The Sign of Cancer is considered "feminine" by Ancient astrologers suggesting that you're not a risk-taker, but are more likely to wait until you feel comfortable before pursuing your purpose. You're also likely to depend on other people to take the initiative. Cancer is also a Cardinal Sign denoting enterprise, enthusiasm, self-assertion and initiative.

Caring for others is your major purpose in life. This could be caring for your own family and friends, extended family, pets, children or the elderly, or caring for humanity, or all of these. You're impressionable, tenacious, hospitable, sympathetic and moody. You've strong feelings, ranging from the most pure feelings of compassion to the most intense feelings of hatred. On the positive side your life is motivated by the highest form of feelings motivating you to care for other people, and bringing both you and the other parties a sense of warmth and emotional satisfaction. However, on a negative note you're highly impressionable and your feelings may be misguided. You're sensitive and easily hurt, and can either build a protective wall if you feel vulnerable, or seek revenge. You need to be wary of judging situations based purely on emotion, and ensure that you're constantly working for the good of others.
CONCLUSION

The text in this report has been written by Australian astrologer Stephanie Johnson. About the Author: The text in this report has been written by astrologer Stephanie Johnson. Stephanie was a journalist in Australia, England and the USA for 15 years before becoming a professional astrologer. She is currently the sole director of Esoteric Technologies Pty Ltd, and one of the creators of Solar Fire and Astro Gold. Stephanie is based in the leafy inner suburbs of Adelaide, Australia. It is here that the Solar suite of software was created, and Stephanie runs her own international consultation business and astrology report writing service. Stephanie has a background in medieval astrology which can be detected in the direct style of the report. Medieval astrologers differed from modern-day astrologers in several ways. They didn't have a psychological approach to chart interpretation, but took a much more literal approach. They were very much concerned with the fortunes of an individual, whether a person would survive or not, and whether or not the person would experience good or failing fortunes. The author's particular area of interest in Esoteric astrology can be mainly detected in the section labelled "Purpose and Joy". In Esoteric astrology the purpose of an individual is linked to the soul. In other words it is believed that our souls determine our sense of purpose in the world, motivating us to put our gifts to good purpose.
