INTRODUCTION

Why, man, he doth bestride the narrow world Like a
Colussus and we petty men Walk under his huge legs,
and peep about To find ourselves dishonorable graves
Men at some time are masters of their fates:
The fault, dear Brutus, is not in our stars,
But in ourselves, that we are underlings.
Julius Caesar (1599) act 1, scene 2 Shakespeare

The subject of Fate or Destiny has triggered many a philosophical argument. What is destiny? Are the details of our lives pre-destined? How much free will do we really have? These are imponderable questions. This report does not offer the answers. Rather it gives us some signposts to help us on our life journey.

When meteorologists forecast the weather we understand that they are not telling us how to live our lives. Rather they are giving us information that may help us make our own decisions. As far as the weather is concerned our major decisions are whether or not to dress warmly or to take an umbrella. The astrological system of Transits is offering us much the same information. It is giving us an indication of the emotional and intellectual weather of our lives. It is up to us to decide our own destiny.

You have reached the culmination of a cycle in your life and are ready to reap the rewards of seeds sown earlier. Your career and home life are particularly influenced by this phase. The rewards depend largely on whether or not you have sown your seeds on fertile ground. If you have squandered opportunities in the past, not paid attention to details or shirked your responsibilities then you could find this a difficult time. However, if it is far more likely that you reap the riches of past actions. You have opportunities to expand

your career choices either through study, promotion, new job opportunities or a change of direction. You may even become a parent, if this is one of your life goals. You may study or travel in order to expand your professional choices. Whatever the circumstances you are feeling confident and now is a good time to broaden your professional horizons. Beware only of over-confidence that could lead to taking on too much or making unwise choices. Consider your career prospects and professional responsibilities carefully. Although this can be a positive time for socialising with loved ones, there is also an element of tension. This could be because you are expecting too much from your nearest and dearest, or it could be that they are asking too much from you. You find it difficult to please yourself and other people. There has to be a balance between the adventures of life and the routine daily demands. Right now one of you is seeking only the adventure and this is causing tension. It is often hurtful when one person in a close relationship upsets the balance, so it is understandable if you are feeling rejected by your loved one. The best approach may be to give the other person a little bit of time to settle down. They may need a little bit of freedom before returning to a more balanced approach to the relationship. On the other hand it could be that the other person's insensitivity to your relationship is the straw that breaks the camel's back, as far as you are concerned. If you are the one who is acting in a rash manner then you would be wise to listen to other's concerns and show a little restraint. In astrology Jupiter is considered to be a positive influence. Therefore it is more likely that things will settle down with positive results from this topsy-turvy time.

It appears right now that other people or circumstances are standing right in the middle of every path that you choose to take, and you feel frustrated and tired. The time is ripe to step back and reassess your goals and ambitions before trying to meet other people and obstacles head on. Pushing forward regardless of your circumstances will only cause greater tension than you are already experiencing. At this point in time you would be better advised to bide your time, reassess some of your ambitions in the light of current circumstances and allow others to forge their own paths. Perhaps their plans are disrupting yours unfairly or perhaps you are being requested to consider other people's goals. If you are the sort of person who usually leads the way then perhaps it is time to let others share in decision-making. You can relax your tight hold on the reins of power and take a back seat. On the other hand perhaps you have always let others dictate. Now you are required to quietly stand up for your own rights and ensure that you are not being bullied. Either way you are well advised to stay away from anyone who threatens to abuse your rights. With a little patience and tolerance you can adjust to the advent of other people's requirements or life's new circumstances. This is particularly true of a man in your life, perhaps a husband, boyfriend, father, or brother. However, it could be any male friend or relative who is demanding attention or a change of direction. It could also be true for a project that you are undertaking, either or your own or as a group venture. The more sensible you are in making plans and co-operating with others while maintaining your own sense of self, the more rewards can be reaped from this phase. Your patience can really pay off, helping you gain a real sense of purpose and achievement.

You may be introspective, pondering on childhood memories and relationships, particularly with parent figures. Although this can be a painful process, there is light at the end of the tunnel. About seven years ago you set certain changes in motion. Since then you have been steadily working towards personal happiness, financial rewards and better self-expression. You have developed a strong sense of self and sown some seeds for the future. You are now faced with the opportunity to consolidate these changes, or to reassess. You are currently required to take time to settle down and lay the foundations for the next phase of your life. This could simply mean working steadily and quietly on a project, but it is more likely to be a need to focus on matters close to home, including your family and your house. If you are married with dependants then these loved ones may require your considered time and attention. Alternatively you may be planning to start a family. It is possible that a family member comes to live with you, adding to your responsibilities at home. Perhaps your father, or other members of your extended family, may be demanding your attention. Your living space may also require attention. If you have been moving around or do not own your own home then perhaps you are ready to settle down. If you are already comfortable in your living quarters, you may discover that your house needs renovations or additions. It is the ideal time to make these changes. On the other hand you may choose to move to a new home, one more suited to the next phase of your life. You may choose to start a real-estate portfolio or to start a business working from home or even to move your home business to offices. Whatever your personal situation, you would be wise to put in the extra time and effort required for this next phase of your life. If you can concentrate your efforts on this private area of your life then you stand to benefit greatly in the future. Whether you realize it or not, you are currently building an emotional and physical foundation for the next phase of your life.

This can be a time of confusion when you are unsure of your purpose in life. On the one hand you are unsure of where you are heading, on the other hand you feel compelled to know your purpose. The answer is to keep seeking information which will help you better understand your purpose. However, you need to be very wary of any groups or people who try to influence you to change direction in life. The key to this transit is to explore possibilities without making any life changing decisions. The problem is that this is exactly what you feel like doing. Now is the time to explore those feelings, but not to take any action that has far-reaching consequences. The reason for this is that you currently lack discrimination and are vulnerable to artistic, spiritual and charitable urges, both from within you and from other people. You may feel that the world is your oyster, beckoning you to newer and greener pastures, however; now is not the time for taking such action. Rather explore new creative urges in ways that do not threaten your livelihood, loved ones or support structures and wait until the clouds have cleared. In the meantime, if you act with integrity, you will look back on this period as one of profound inner change, perhaps in ways that you could not have foreseen.

Your relationship with your loved one is going through a confusing time right now testing your integrity and self-confidence. It could be that your relationship has deteriorated because of your partner's ill health or issues surrounding drugs. It may be that the partnership has dissolved leaving you wandering in a fog uncertain as to the reasons why or it could be that your partner has been deceiving you in some way. Sometimes a third person can be hovering in the distance further confusing the issues. If you are not currently in a relationship you may feel drawn to someone in need of your help, someone who could become reliant on your good nature. It would be best to avoid such relationships, although you may not see this at the time. If you feel that your new relationship is the ideal that you have always been waiting for, you would still be wise to enjoy the romance but wait before you make a commitment as you may not be seeing things clearly right now. On a more positive note it is possible to enjoy a creative or spiritual pursuit with your partner during this time. A person or a project is currently offering you the opportunity to revise your strengths and weaknesses and alter your life. In other words they are demanding changes. The more that you accept this challenge the more that you benefit from this phase. If you remain inflexible then life is likely to become a battle zone with opposing sides ready to dig in for the long term and with no resolution insight. It may be one particular crisis affecting a loved one and they are demanding your support, or it could be a series of smaller crises. Someone close to you may be ready to change events in their life and you are required to make some tough decisions. Either way this is not a time for aggressively insisting on doing things your way. Your ability to remain calm and diplomatic is being sorely tested, but these traits are exactly what are required to successfully navigate this phase of your life. It is helpful to remember that this is a time of transformation, and even if you feel that change has been forced on you by external circumstances, it is better to shed the skins of the past. It is sometimes said to be one of the mid-life crises during which you are motivated to clear out old deeply-entrenched patterns and habits. It is a time to re-evaluate your deepest motivations and feelings. You may become more wilful, driven by deeper urges to make your life conform to your innermost desires and ambitions. You are forced out of any ruts. Pluto's energy can sometimes be ruthless and so you may feel some pain in the process of letting go and stepping

out of your comfort zone. However, the process is regenerating and you will feel better able to tackle the rest of your life with the renewed vigour that comes from a lighter load. This is particularly true if you can ensure that your willpower is aligned with integrity and true spiritual purpose rather than personal, selfish desires.
